

MAHODAYA

3 Night Labuan Bajo, Komodo & Flores Expedition

Day One

Board **MAHODAYA** and depart immediately to Tatawa Besar. Dine en route, and on arrival depart for snorkeling or diving with opportunities to see pelagic fish, turtles and even mantas if lucky. In the evening head to overnight anchorage at Wainilu.

Day Two

Depart early morning on the tender to the nearby Rinca Island for a trek through this rugged and almost lunar landscape. Also look out for buffalo, deer and monkeys. On return head to Siaba Besar for diving or snorkeling on stunning coral reefs, or to nearby Makassar for a beach set up with potential nearby for snorkeling with manta rays. In the evening enjoy a special celebratory meal prepared by our onboard team.

Day Three

In the morning make the trek up to the most recognizable Komodo viewpoint on Padar Island for sunrise. Here lie many of the famous dive sites, though these are also great for some drift snorkeling! Depending on tide levels there's a few beaches available for beach set ups if desired also. In the evening cruise eastwards once again towards Labuan Bajo in preparation for departure the following day.

Day Four

Relax onboard awaiting departure. The team will escort you to the airport in time for your outbound flight and see you through the check in process.

**Itinerary can be changed based on sea conditions and discussions with the team when the guest onboard.*
